

MV-CISL Database Release Agreement

NON-EXCLUSIVE LICENSE AGREEMENT

This Non-Exclusive License Agreement ("Agreement") is made between the Sign Language Research Group, Neural Computing and brain-computer intelligence team, College of Electronic Information Engineering, Taiyuan University of Technology (TYUT) (hereinafter referred to as "Licensor") and

(Please fill in the name of your research group or laboratory on the line.)

The MV-CISL database ("Dataset") was constructed by the Sign Language Research Group, Neural Computing and brain-computer intelligence team, College of Electronic Information Engineering, Taiyuan University of Technology (TYUT). MV-CISL is a multi-view dataset for isolated Chinese Sign Language (CSL) recognition, containing video recordings of CSL lexical gestures, gloss-level annotations, and corresponding Chinese character translations. The Dataset is intended for research purposes only, supporting academic efforts in sign language technology development, algorithm testing, and recognition system evaluation.

The Licensor retains all copyrights and intellectual property rights to the Dataset, including but not limited to video frames and annotation files. The Licensee's researchers who request the MV-CISL database must sign this non-exclusive license agreement and thereby agree to obey the restrictions listed in this document. Failure to observe the restrictions might result in access being denied for the request of the future version of the CSL database and being subject to civil damages in case of publication of images and other related data that have not been approved for release. The researcher(s) agrees to the following restrictions on using the MV-CISL database:

1. This agreement grants a non-exclusive, non-transferable, revocable, and limited license to the Licensee to use the Dataset for the purpose of undertaking the Licensed Research Activity only, NON-COMMERCIAL USE.

2. Any data, including but not limited to the images, videos, text annotation files in the database, will never be released in commercial materials, newspapers, or other public media. The data will be used for the purpose of academic research only.

3. The MV-CISL database, in whole or in part, will not be used for any commercial purpose in any form, including but not limited to using the whole or part of the data for sales, product promotional activities, and/or for training algorithms or other technology that is used or is intended to be used for commercial use or sold as or incorporated into a commercial product.

4. The database will not be re-distributed, published, copied, or further disseminated in any way or form whatsoever, whether for profit or not. This includes further distributing, copying, or disseminating to a different facility or organizational unit in the requesting university, organization, or company. The Licensee shall not make or permit anyone to make any copies of the whole or any part of the Dataset without the prior written agreement with Licensor. The Licensee shall not sub-license the whole or any part of the Dataset or make the Dataset available for any use by third parties without Licensor's prior written consent.

5. The Licensee shall avoid using part of the data where the identity of individuals is readily recognizable from such part either as a stand-alone extract or where combined with other materials (including images, text, content analyses, summaries, or interpretations).

6. The Licensee shall provide (and if applicable shall ensure that any subcontractors and agents shall provide) the Licensor with such access (including access to such parts of the Licensee' s and any sub-licensee processes and systems that are used for processing the Dataset) as Licensor may reasonably need to review the use of the Dataset within the terms of this Agreement.

7. The final interpretation of this Agreement rests with the Sign Language Research Group, Neural Computing and brain-computer intelligence team, College of Electronic Information Engineering, Taiyuan University of Technology.
